

Updating Chromebooks

1. Log in to your Chromebook.
2. Click the clock at the bottom right-hand corner of the screen (could be in number format, example 2:10).
3. Click Settings or could be the gear icon. 
4. The setting screen will pop up and then click on "About Chrome OS" located at the bottom of your settings screen.
5. Click "Check for Updates".

Note: Your screen will either show your Chromebook is updated or begin updating your Chromebook if needed.
